***Response to Amendment***

Applicants' amendment filed on March 24, 2005 has been entered and forwarded to the examiner on April 01, 2005.

Therefore claims 1-23 as recited in the amendment are currently pending in the Application.

***Allowable Subject Matter***

Claims 1-23 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitation of the dependent claims, in such manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The applied prior art fails to teach a combination of all the claimed features as presented in independent claims 1, 20 and 22, which include in a method of fabricating substrates environment, including the a smoothing process (step) taking place in conjunction with etching and deposition to form a smooth surface, i.e. subjecting a non uniform surface of a SOI structure to thermal step etching step and deposition step all three steps formed in conjunction to form a smooth surface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
